

include/emsr/solver  
\_jenkins\_traub\_complex.tcc

```
graph TD; A["include/emsr/solver  
_jenkins_traub_complex.tcc"] --> B["vector"]; A --> C["complex"]; A --> D["limits"];
```

A diagram illustrating a header file's dependencies. At the top, a gray box contains the text "include/emsr/solver" and "\_jenkins\_traub\_complex.tcc". Three blue arrows point downwards from this box to three separate white boxes below it, labeled "vector", "complex", and "limits".
