

include/ext/polynomial.tcc

```
graph TD; A[include/ext/polynomial.tcc] --> B[ios]; A --> C[complex];
```

A diagram illustrating header dependencies. At the top, a gray rectangular box with a black border contains the text 'include/ext/polynomial.tcc'. Two blue arrows originate from the bottom center of this box. The left arrow points down and to the left to a white rectangular box with a gray border containing the text 'ios'. The right arrow points down and to the right to another white rectangular box with a gray border containing the text 'complex'.
